Problem

How to Change Language in VPC Pure

Procedure

- Switch ON the machine
- Wait until the software bootup is completed

- Press  to open menu selection

- Select  to enter settings menu

- Click  on to open Language selection

The screenshot shows the 'Settings Mode' interface. On the left, there is a sidebar with three tabs: 'General', 'Network', and 'Service'. The 'General' tab is selected. In the main area, the 'Language' dropdown menu is highlighted with a red box and shows 'English' selected. Other settings include 'Job Code' (0), 'GCAL 2' (10), 'S-Type', 'TC Type', 'Unlock Code', 'User Color' (black), 'Serial Number' (22246558), 'License Status' (Active), 'On Screen Keyboard' (checked), 'Expiration' (31.12.2099), 'Version Controller' (112), 'Version Generator' (170), 'Version PC Firmware' (23.2.1 RC1), 'Printer Output' (Build-In Printer, Windows Default Printer), and 'File Output' (Summary Report). A 'Test Print' button is at the bottom left.

- Select desired Language

The screenshot shows the 'Settings Mode' interface with the 'Language' dropdown menu open. The dropdown menu is highlighted with a red box and shows the following options: 'English' (checked), 'Turkish', 'French', and 'German'. The background settings are the same as in the previous screenshot.

- Select  to enter program selection in automatic mode

- Press  to open menu selection

In case if the problem still exists, please feel free to contact us again.
